

Elite Cleaner quickly and efficiently cleans up dirt, leaves and debris from your pool.

- Easy to install and operate
- Low maintenance
- Operates on minimal suction
- Integral float and weights

SUITABLE FOR  
CONCRETE, PEBBLECRETE, FIBREGLASS AND TILED SURFACE POOLS.

Elite Cleaner works together with your pool's filtration system. A hose connects the cleaner to your pool skimmer and the suction generated by the pool pump transforms Smart Cleaner into an underwater vacuum cleaner.

Elite Cleaner randomly moves around the whole pool, cleaning and depositing debris into the pool's skimmer basket.

Elite Cleaner is easily installed and is designed to provide years of low maintenance operation.

#### Swivel

Elite Cleaner swivels freely to increase the random coverage of your pool.

#### Deflector & bumper strip:

Elite Cleaner's unique deflector and bump strip enables it to maneuver around steps, corners, and other obstacles.

#### Integral weights

Elite Cleaner has adjustable ballast weights for stability and enhanced performance.

#### Durable

Constructed from long lasting, corrosion and UV proof materials, Elite Cleaner is suitable for fresh and salt water pools.

#### Finned Disc

Elite Cleaner glides effortlessly along the bottom of your pool and up and down the pools walls.

#### Flapper Valve

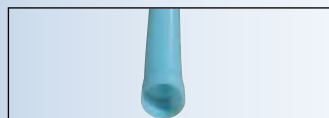

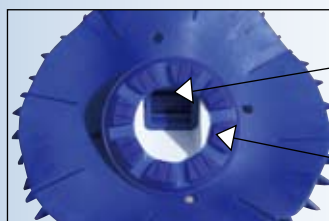

Elite Cleaner relies on only one moving part. There are no bags or compartments to empty, wheels or gears to jam, or diaphragms to replace.

#### Large suction mouth

Elite Cleaner's large suction mouth enables it to tackle large pool debris and allows for easy maintenance.

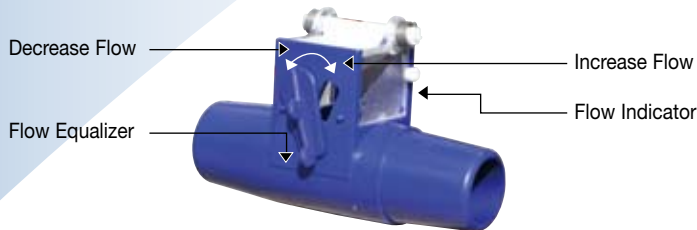

#### Invisi Hose

Elite Cleaner's Invisi Hose allows you to view the debris being vacuumed up, while discreetly blending into the colour of your pool.

#### Elite Weir Valve

This compact flow control valve regulates water flow, ensuring optimum performance. This valve will clearly display the state of your filtration system. Should your filter require backwashing, this will be indicated by the position of the flow indicator.

#### Waterco Skimtrol Vacuum Plate (optional)

A Skimtrol Vacuum Plate will allow better skimming and suction control. The suction of Elite Cleaner can be adjusted via the rotation of the leaf cage.

#### Versatile

Elite Cleaner suits all pool types. Above-ground and in-ground concrete, pebble crete, fibreglass and tiled surface pools.

#### Simple installation

You can install Elite Cleaner in minutes. Since it's pre-assembled in the box, just connect the hose to the cleaner and then attach it to your skimmer box. No tools or special plumbing is required.

#### 2 Years Limited Warranty

Elite Cleaner and the original hoses are covered against all manufacturing and material defects for 2 years.

#### Each Smart Cleaner includes:

- 10 metres of Invisi Hose
- Elite Weir Valve
- Weir adaptor set
- Bump Strip
- Deflector wheel
- Fin disk
- Clip-on Weight
- Hose Adapter
- Manual and warranty card
