# Perox Safe & Clear

For a freshwater Swimming Experience

## What is Perox Safe & Clear & how does it work?

Perox Safe & Clear is a unique blend of salts that when used in conjunction with a salt chlorinator produces low levels of Chlorine Dioxide, an incredibly effective sanitiser that eliminates viruses, bacteria, biofilm and parasites and improves overall water quality.

After it has done its job, it breaks down into salts ready to be reused.

## Why should I use Perox Safe and Clear?

Perox Safe & Clear has many added benefits without the cost of installing a secondary sanitisation unit.

Perox Safe & Clear will give you peace of mind, knowing the water is being sanitised in multiple stages to keep the whole family safe.

Perox Safe & Clear will also oxidise organics from the pool water leaving the water crystal clear and eliminating odour commonly associated with chloramines.
