## Aqua~Health

Waterco's comprehensive Aqua~Health™ range keeps your pool and spa crystal clear with high quality, fast acting products that protect your investment from the elements. Featuring seven specialised categories – Algaecides, Balancers, Clarifiers, Oxidisers, Sunscreens, Spa Chemicals and Trouble Shooters – Aqua~Health freshwater and saltwater solutions make it easy to maintain clean and healthy water year-round.

### Special features:

- Colour-coded labels to make it easy to find the right product for your needs
- Widest range of pool and spa chemicals for freshwater and saltwater pools
- Concentrated products to effectively remove grime and organic build-up
- Solutions to remove dissolved metallic compounds from pool and spa water
- Comprehensive range of algaecides that prevent stains and algae growth
- Mineral Crystals that transform your swimming pool into a therapeutic oasis

“ **Making your pool safe**

For priceless peace of mind and healthy pool water, Aqua~Health has a range of highly specialised formulations that maintain proper chemistry and ensure swimmers are safe when they're enjoying the pool. Healthy pool water is not only good to look at but also feels beautiful to swim in.

”

# Oxidisers

## Aqua~Health Ultra Shock

Aqua~Health Ultra Shock is an alternative non-chlorine treatment to superchlorination for the 'shock' treatment of swimming pools. It effectively oxidises the organic content of pool water quickly and easily, leaving it sparkling clean. Ultra Shock is compatible with vinyl, chlorinated, brominated and ozonated pools.

### Features & Benefits

- ✓ Contains NO chlorine - no unpleasant odours
- ✓ Like chlorine, destroys organic compounds - makes water sparkle
- ✓ Compatible with all chlorinated (including salt), brominated or ozonated sanitising systems
- ✓ Dissolves easily in water - no pre-mixing is required
- ✓ Suitable in any pool water conditions
- ✓ Preferred for "superchlorination" in salt water pools as it doesn't affect chlorinator electrodes
- ✓ No pool shutdown required - dose and swim 1 hour later
- ✓ Pre-measured jars are simple to use

### Available Pack Sizes

1kg and 5kg

### Recommended Dosage

For pools add 125g/10,000L, for spas 60g/2,000L.

# Sunscreen

## Aqua~Health Sunscreen

Reduces chlorine consumption in pools by up to 50% by protecting and stabilising the chlorine from the sun's harmful ultraviolet rays. Ideal for chlorinated and salt water pools. It stabilizes the free chlorine and prevents chlorine breakdown by UV light from the sun. Aqua~Health Sunscreen also ensures the sanitiser works effectively.

### Features & Benefits

- ✓ Protects chlorine from the sun's UV rays
- ✓ Use in all chlorine and salt pools and Spas
- ✓ Use in all chlorinated and saltwater pools and spas

### Available Pack Sizes

3kg and 25kg

### Recommended Dosage

500g/10,000L raises sunscreen levels by 50ppm.

Levels between 30 and 50ppm are ideal. Levels over 100 ppm will cause chlorine Lock.

There is no added benefit of levels above 50ppm.

## “ Protecting your pool

Owning a swimming pool is a major investment, so it pays to keep it in peak condition— and healthy for swimmers – for as long as possible.

Aqua~Health’s water balancing range helps to maintain correct pool water balance and ensure valuable pool filtration and sanitation equipment operates smoothly and efficiently.

”

# Balancing Chemicals

## Aqua~Health Granular pH Decreaser

A safer alternative to hydrochloric acid, this special formulation reduces the pH and lower the total alkalinity in pool water.

### Features & Benefits

- ✓ Safe to handle.
- ✓ Soluble in water.
- ✓ Long shelf life.
- ✓ No fumes.

### Available Pack Sizes

25kg

### Recommended Dosage

Application rate will depend on the pH and size of the pool. Please refer to product label or your pool shop specialist for dosages and application.

## Aqua~Health Hardness Increaser

Aqua~Health Hardness Increaser raises the hardness of water (the concentration of dissolved calcium) in your pool thus preventing pitting of concrete-based pool walls and erosion of mortar and tile grout. It also reduces damage to Marblesheen and pebble finished pools, caused by low levels of calcium.

### Features & Benefits

- ✓ Non-hazardous chemical
- ✓ Excellent at increasing the level of water hardness
- ✓ Totally soluble in pool water
- ✓ Has a shelf life of several years if stored in cool, dry conditions
- ✓ Will not affect the pH or total alkalinity

### Available Pack Sizes

8kg and 25kg

### Recommended Dosage

For an increase of 10ppm use 150g/10,000L of pool water.

# Balancing Chemicals

## Aqua~Health Alkalinity Increaser

Aqua~Health Alkalinity Increaser raises the total alkalinity of your pool and acts as a pH buffer. Pool water treated with Aqua~Health Alkalinity Increaser will have a pH that is most comfortable to swim in.

Aqua~Health Alkalinity Increaser also helps protect against corrosion and scaling, and maintain a stable pH.

### Features & Benefits

- ✓ Excellent at buffering the pH of pool water at a level comfortable for swimming and appropriate for chlorine disinfection
- ✓ Totally soluble in any water conditions
- ✓ Has a shelf life of several years if stored in cool, dry conditions
- ✓ Is a non-hazardous chemical

### Available Pack Sizes

10kg and 25kg

### Recommended Dosage

For a 60ppm increase in total alkalinity, add 1kg /10,000L of pool water. Dissolve in a bucket of water and distribute over the pool. Run filter for at least 8 hours.

“ Sparkling water

AquaHealth has a comprehensive range of products that improve water clarity and filter efficiency, ensuring you get the most from your pool - not only during summer's peak swimming season, but also throughout the year.

”

# Clarifiers

## Aqua~Health Aquashine

Aqua~Health Aquashine is a water polisher designed to maintain the sparkle in pool water. It contains ingredients that bind with materials which can cause cloudy water allowing them to be easily filtered out of the pool. It also conditions the filter to assist in the removal of suspended matter.

### Features & Benefits

- ✓ Improves filter efficiency.
- ✓ It's concentrated; 1L will treat 100,000L of pool water when used on a maintenance basis.
- ✓ Fast acting - coagulated particles will be filtered out or settle overnight.
- ✓ Effective in a wide range of water qualities (pH, alkalinity, hardness, etc.).
- ✓ Pool can be used immediately after treatment - no waiting period.
- ✓ Can be used in conjunction with other pool chemicals.
- ✓ Biodegradable, non-toxic and non-irritating.
- ✓ Can be used in all types of pool finishes.

### Available Pack Sizes

5L and 20L

### Recommended Dosage

For initial use 200mL/10,000L of pool water, for ongoing maintenance 100mL/10,000L of pool water.

## Aqua~Health Supafloc

Clears cloudy water and improves filtration. This product can combine with suspended particles such as dirt and dead algae and cause them to drop to the bottom of the pool to be vacuumed out. Use this product when you do not wish to raise your pH levels to restore clarity to cloudy pool water.

### Features & Benefits

- ✓ Requires no adjustment of normal pool pH (best between 7.6-7.7)
- ✓ Clears the cloudiest pools in under 6 hours
- ✓ Easy to apply liquid formulation
- ✓ No messy residue
- ✓ Removes dead algae and other floating particles
- ✓ Quickly settles debris and organic matter to the bottom of the pool
- ✓ Very economical to use
- ✓ Compatible with all types of pool chemicals
- ✓ Can be used in all types of pool finishes

### Available Pack Sizes

1L

### Recommended Dosage

Mix 100mL/10,000L of pool water in a bucket of water and spread over pool area. Set filter to recirculate and run pump for 4-6hrs. Leave pool to settle and then vacuum sediment to waste.

“ Algae control

Preventing, controlling and killing stubborn algae is easy with AquaHealth's specialised Algae Control range. Easy to use and highly effective against a broad range of resistant strains.

”

# Algaecides

## Aqua-Health Black Spot Treatment

A non-foaming non-metallic formula for the control of black algae in swimming pools. It has dual effect in the pool as algaecide and clarifier at the same time. Effective against a broad range of algae.

### Features & Benefits

- ✓ Can be used in all pool finishes
- ✓ Effective against black algae, and resistant algae
- ✓ Can be used in ionised pools
- ✓ Excellent synergy for saltwater pools

### Available Pack Sizes

1L

### Recommended Dosage

Initial dose 150mL/10,000L of pool water (heavy outbreaks), 110mL/10,000L (light outbreaks), 40-60mL/10,000L (preventative).

## Aqua-Health Concide

Aqua-Health Concide is an extra-strength algaecide especially formulated to kill and control algae where there are severe problems. Its active ingredients make it ideal for controlling all types of algae including the more resistant black strains.

### Features & Benefits

- ✓ Effective against all types of algae even the usually more resistant strains.
- ✓ Compatible with chlorine, it also has negligible effect on pH, total alkalinity, and hardness
- ✓ Once added, remains effective for three months
- ✓ Extra-strength formulation is great for stubborn algae problems

### Available Pack Sizes

1L and 20L

### Recommended Dosage

Initial dose 85mL/10,000L of pool water. If severe double the dose.

# Trouble Shooting

## Aqua~Health Control & Condition

Aqua~Health Control & Condition is designed to control hardness salt deposition on salt chlorinator electrodes and heat exchange elements of gas and electric heaters.

It also has the ability to bind with dissolved metal, disperse solid materials such as scale, and inhibit scale from forming on the pool surface.

### Features & Benefits

- ✓ Prolongs the life of salt chlorinator electrodes and heater elements
- ✓ Increases heat transfer by maintaining cleaner heater elements
- ✓ Eliminates the need for harsh acids when removing scale
- ✓ Lowers maintenance requirements - scale is simply hosed off
- ✓ Effective over a wide range of pH and temperature conditions
- ✓ Loosens and dissolves existing scale formations on pool walls and prevents reformation
- ✓ Removes stains on pool surfaces caused by dirt, algae and metal corrosion
- ✓ Helps clarify water that is discoloured or clouded by iron, manganese and calcium

### Available Pack Sizes

1L

### Recommended Dosage

Add 200mL per 10,000L of pool water to a bucket filled with water (never add water to chemicals) and distribute evenly around the pool perimeter.

## “ Trouble shooting

From colour coded labels that make it easy to find the right product for your needs, to products that perform specific functions, AquaHealth's Trouble Shooting range has the perfect solution for every pool problem.

”
