Pool Care

TRIDENT ROBOTIC
POOL CLEANER

*Experience the freedom and flexibility that
comes with a cordless robotic pool cleaner*

WATERCO
water, the liquid of life

Harness *the intelligent* power of the **Trident PRO+**

The Trident PRO+ robotic pool cleaner:

Experience superior pool cleaning with this advanced robotic pool cleaner. It is ultra-light weight and with quick water release. The Trident PRO+ is a unique Battery-powered robotic pool cleaner recommended for pools up to 15m in length that are irregularly shaped and/or have in-pool obstacles, such as islands, pillars and bridges. The dual active brushing action ensures efficient pool coverage, with extra-thorough scrubbing on all surfaces – leaving the floor, walls and waterline spotlessly clean.

Trident PRO+ features and benefits:

- Scrubs, brushes, vacuums and filters the entire pool.
- Advanced scanning program ensures optimal pool coverage, with entire-pool cleaning in 1.5 hours or less.
- Integrated gyro further enhances scanning efficiency, precision and maneuverability.
- Obstacle escape mechanism enables continual, intervention-free operation.
- Battery charger provides fast and easy charging in just 3 hours.
- Remote control with selectable cleaning programs and manual navigation.
- Unique, built-in battery compartment inside the motor unit minimizes weight and simplifies operation.
- Dual-active brushing delivers top-of-the-line cleaning performance. Intensive removal of algae and bacteria leaves pool water pure and clean, significantly reducing the need for chemicals.
- Top-access filtration compartment for easy and convenient maintenance.
- Dual-level filtration system covers all pool conditions. Ultra-fine cartridge for day-to-day cleaning collects fine dust particles. Wide-mesh net collects leaves and rough debris.

Water Saving

Water Saving

Trident PRO+ effectively removes sediment, algae and bacteria, reducing the quantity of debris the filter system collects. This in turn eases filter maintenance and cleaning, and the quantity of refills of water into the pool.

Energy Saving

Energy Saving

Trident PRO+ robotic pool cleaners use just a fraction of the resources consumed by other pool cleaning systems. Trident PRO+ has been designed to reduce energy consumption and operating cost.

Chemical Use reduction

Chemical use reduction

Less filter maintenance and cleaning basically means less water and chemical loss. Not only that, but Trident PRO+ also helps with water recirculation and enhanced chemical distribution – further reducing pool chemical use.

Trident HYDRO Product Specifications

| | |
|-------------------|---|
| Ideal Pool Length | Ideal for pools approx 15m |
| Cleaning Coverage | Floor, Walls & Waterline |
| Filtration | Easy-clean Ultra-Fine filter cartridge & Wide-mesh net |
| Cycle Time | 1.0 / 1.15 / 1.30 hours |
| Brushing | Dual active brush spins at 2 x the speed of the robot, resulting in enhanced all-surface cleaning |
| Charger | Digital switch-mode charger IP54 |
| Weight | 13.2kg |

* Warranty - 3 years on all parts except the battery. 2 years on the battery.

Complete pool scanning

Dual cartridge filtration

Top access
