

Multicyclone XL70 Auto Purge System - 1 Valve

Designed for operation with the XL70 commercial Multicyclone on integrated filtration where there is natural system back pressure.

What's in the kit?

Item No	Part. No	Part Description	Quantity
1	3652607	24V AC Motor Valve Actuator	1
2	148564	50/65mm 2 Way Valve Actuator Type	1
3	3652615	Multicyclone Valve Controller Kit	1

Waterco's Multicyclone Auto Purge System controller is covered by a 2 year warranty and 1 year warranty on labour. Commercial installations are covered by a 1 year warranty.

MULTICYCLONE

AUTO PURGE SYSTEM

Waterco's Multicyclone Auto Purge System is designed to automate our award winning Multicyclone centrifugal filters.

- Set and forget controller minimises maintenance and saves water
- Purge events and durations may be custom programmed to suit the installation
- Suitable for new and existing Multicyclone installations
- Integrated back up battery saving settings in the event of power failure

Multicyclone Auto Purge Controller

Designed to automatically control the purging of captured debris collected by Waterco’s residential or commercial Multicyclones. The controller is designed to operate within the pump operating cycle and is:

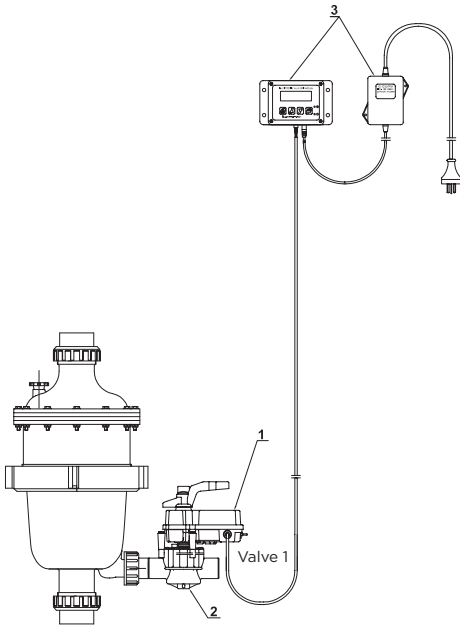

- Settable from 1 to 99 day purging cycle intervals
- Settable from 3 to 180 second purge duration
- Settable from 5 to 60 second actuated valve rotating duration – 25 second default

There are three different Multicyclone Auto Purge System Kits available to suit your installation.

Multicyclone 12/16 Auto Purge System – 1 actuated valve

Designed for operation with a Multicyclone on integrated filtration or infloor cleaning systems where there is natural system back pressure.

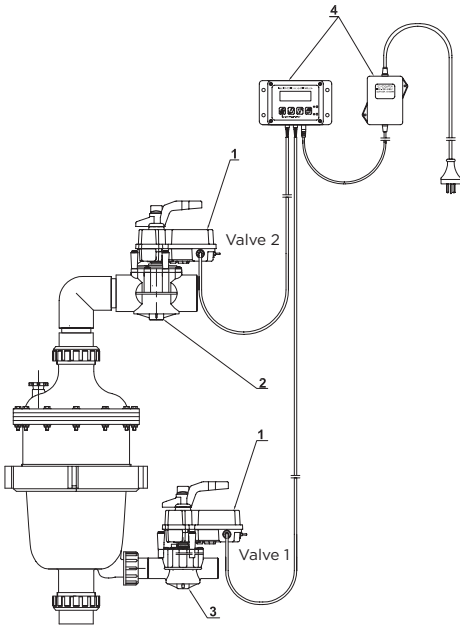

What’s in the kit?

Item No	Part. No	Part Description	Quantity
1	3652607	24V AC Motorised Valve Actuator	1
2	148507	25/32mm 2 Way Valve Actuator Type	1
3	3652615	Multicyclone Valve Controller Kit	1

Multicyclone 12/16 Auto Purge System – 2 actuated valves

Designed for operation with a Multicyclone installed on hydraulic systems with little natural back pressure, such as independent pool heating circuits, water features and cooling towers. The second valve mounted at top of the Multicyclone creates the necessary back pressure for purging of collected debris to occur.

What’s in the kit?

Item No	Part. No	Part Description	Quantity
1	3652607	24V AC Motor Valve Actuator	2
2	148564	50/65mm 2 Way Valve Actuator Type	1
3	148507	25/32mm 2 Way Valve Actuator Type	1
4	3652615	Multicyclone Valve Controller Kit	1
